Portfolio: dandyson.github.io | GitHub: github.com/dandyson | LinkedIn: linkedin.com/in/dandyson297

PROFESSIONAL SUMMARY

PHP/Laravel Software Engineer with 4 years' experience across SaaS product development and agency environments, building scalable web applications with Laravel and Vue.js. Proven track record delivering clean, well-tested backend systems, contributing to complex legacy codebases, and taking end-to-end ownership of features. Thrives in focused product environments, taking deep ownership of a single codebase and delivering thoughtful, well-crafted solutions at a sustainable pace.

CORE COMPETENCIES

PHP 8+ & Laravel, Vue.js, RESTful API Design & Integration, Automated Testing (PHPUnit, Jest & Cypress), Legacy Codebase Refactoring, Technical Documentation, CI/CD Pipelines, Docker, Code Review, Design Patterns, AWS (S3, CloudFront), Railway, MySQL, PostgreSQL, Redis

PROFESSIONAL EXPERIENCE

Software Engineer - Evoluted, Sheffield

AUGUST 2025 - PRESENT

- Maintain and improve multiple PHP/Laravel applications, writing clean, well-tested code (PHPUnit) as standard practice across all projects.
- Stabilised a legacy education platform with near-zero test coverage, reducing regression risk and authoring internal technical documentation that materially improved team understanding of complex business logic.
- Conduct peer code reviews on pull requests, providing feedback aligned with team coding standards and best practices.
- Deploy and monitor applications via Docker and GitLab CI/CD pipelines; actively developing expertise in all areas of software engineering during fortnightly learning sessions.

Software Developer (Junior-Mid) - Synergi Tech Ltd, Lincoln

AUGUST 2021 - MAY 2023

- Delivered end-to-end SaaS and web apps in Laravel & Vue.js, taking ownership from design to deployment.
- Built a multi-step safety-check form system for field engineers at a utility company, improving reporting efficiency.
- Developed a custom SaaS platform integrating OpenAI API for automated educational content generation.
- Implemented robust testing infrastructure (PHPUnit), increasing code reliability and reducing bugs pre-release.
- Integrated AWS S3 for secure file management and optimized database queries to improve system performance.

Junior Front-End Developer - Brave Agency, Peterborough

JANUARY 2021 - JULY 2021

- Built and optimised WordPress and Drupal sites, developing strong foundations in responsive design, semantic HTML, and frontend debugging practices.

Junior Front-End Developer - Champions UK PLC, Loughborough

AUGUST 2020 - DECEMBER 2020

- Managed content delivery and frontend development using Drupal 8 CMS for enterprise-level clients.
- Contributed to quality assurance processes for content delivery across key accounts.

PORTFOLIO PROJECTS

HomeMovieHub - Family Video Streaming Platform (Laravel + Vue.js, 2024)

homemoviehub.com

Netflix-inspired streaming platform with Auth0 authentication, family profile system, and custom video player.

WayGenie - AI Travel Itinerary Generator (React + Node.js, 2024–2025)

waygenie.pages.dev

AI-powered travel planning with Redis queue system, responsive React frontend, and 80% test coverage.

NexusFlo - Digital Wellbeing Platform (Laravel + Vue.js, 2023)

nexusflo.uk

AI-powered mental wellness app with multi-step wizard interface, 80%+ test coverage, and automated CI/CD.

TECHNICAL EXPERTISE

- **Frontend:** JavaScript (ES6+), HTML5, CSS3/SASS, Vue.js, React.js, Bootstrap, Tailwind CSS
- **Backend:** PHP 8+, Laravel, Node.js, MySQL, PostgreSQL, Redis, RESTful API Development
- **Infrastructure:** AWS (S3, CloudFront, CloudFormation), Docker, Laravel Sail, Git, GitLab CI/CD
- **Testing & Security:** PHPUnit, Jest, Cypress, Auth0, Laravel Breeze, OWASP Security Practices

OTHER EXPERIENCE / CAREER SABBATICAL

Mentor - Meet a Mentor Programme

MAY 2026 - PRESENT

- Mentoring a front-end engineer transitioning to backend development, providing monthly guidance on backend web concepts, architecture, and career development.

Professional Musician - Princess Cruises, Worldwide

MAY 2023 - AUGUST 2025

- Performed internationally across multiple continents as part of a 1,000+ person multinational crew, including weekly production shows seen by thousands of guests. Developed exceptional discipline, adaptability, and the ability to maintain high standards consistently in dynamic, high-stakes environments - qualities that translate directly into reliable, focused engineering work.

EDUCATION

Lincoln College - Lincoln, UK | BTEC National Diploma in Music Performance - Triple Distinction (DDD) | 2008-2010
